AUSPROTEC™

Superior Clarity, Reliability and easy recording day and night

In-cab Vision Monitor Systems

Get a clear view in daytime or night-time conditions with the AusProTec™ Maxi Vision in-cab monitoring solution.

Whether you are recording for training purposes or operator efficiency, the AusProTec™ Maxi Vision in-cab monitoring system provides an easy to use, reliable means of recording in-cab and surround events.

Utilising the Maxi Vision Heavy Duty Dome IR Camera, this system can be setup to record and display on screen or alternatively record with no operator interface. With the ability to incorporate up to four cameras, this package can be tailor-made for your recording requirements. All imagery is easily reviewed and downloaded via the Maxi Vision PC viewer software.

Please contact your nearest RCT branch for a tailor-made in-cab monitoring solution.
