AUSPROTEC™

Do you require quick circuit diagnosis?

Deutsch DT Detector Kits

DEUTSCH DT Series connectors offer field proven reliability and rugged quality. The DT design strengths include optional flange mounting, multi-pin arrangements, lower cost, and design flexibility. The DT Series offers the designer the ability to use multiple size 16 contacts, each with 13 amp continuous capacity, within a single shell.

The Deutsch Detector kits are designed to illuminate when power is applied to the connector. Available in 12 and 24 volt these connector kits come complete with receptacle, detector wedge and sockets to suit.

Features

- Transparent housing with integrated LED on wedgelock for quick circuit diagnosis
- Colour coded wedgelocks for operating voltages. 12v (Yellow), 24v (Red)
- Joint retention fingers allowing both contacts to be removed at the same time
- Compatible with Pulse Width Modulated (PWM) control
- Sold as complete kit including green band contacts
- Industry proven DT series
- Environmentally sealed
- Latched mating

Specifications

Housing:	Ultem
Seal:	Silicone
Wedgelocks:	Thermoplastic
Contact Size:	16
Contact Rating:	13A @ 125C

Parts

APN: 13316	2 PIN 12V DETECTOR KIT
APN: 13318	2 PIN 24V DETECTOR KIT
