Engine Protection for Your light vehicles

Light Vehicle Engine Warning Kits

The Muirhead® Light Vehicle Engine Warning systems offer engine protection for your light commercial, off road mobile equipment by monitoring engine oil pressure, coolant temperature and coolant levels. The systems, by alerting the operator, reduces premature engine failure, damage and costly repairs.

The systems provide audible and visual warnings and incorporates additional outputs for return to idle or shutdown modes. Compact in design and easy to install.

The Muirhead® Light Vehicle protection kits comes complete with sensors, harness and fittings.

The kits are designed to be installed to a variety of light vehicles.

Features

- Audible and visual warning
- Australian made and tested
- Multi voltage
- Tamper proof
