CONTROLMASTER®

Win High Value Construction Work!

Skid Steer Loaders - Construction

Construction is a competitive and dynamic industry. Specialized contract work can be high reward, high-risk business. Smart contractors can secure the competitive edge by upgrading their conventional Skid Steer Loaders and support equipment through retrofitting - using RCT's advanced remote control systems.

Retrofitted remote-controlled loaders enable you to win specialized work contracts and manage risks safely. Your operators can remotely operate the loaders from a safe distance at the job site, sending their machines in to complete the dangerous work. Operators will be more confident and productive each day, lifting machine billable hours.

Specialized work can include:Confined space work; Dam building or repair; Land-fill or rubbish management; Extreme cold or heat material movement; Chemical salvage and handling; Sea wall repairs; Product placement in snow, dust or exposed to fumes; Drainage and flood zones clearing; Silo flushing; Active power line work; Furnace cleaning and re-lining; High altitude work; Toxic material movement; Sewerage construction or clearage

Benefits: Win specialized contract work; Lift billable hours; Protect your people; Multi task machines and operators; Scalable options

Features

- Line-of-Sight remote control (radio remote)
- Teleremote (video)
