CONTROLMASTER®

Servicing support for your Automation & Control equipment

2200 Field Service Kits

The ControlMaster Field Service kit is designed to include all major components to assist in field repairs to all ControlMaster 2200 series transmitters and receivers.

There are kits available for all ControlMaster equipment, including 2200 series transmitters and receivers and the Teleremote communication equipment.

The kits are housed in a Transit case that ensures the items are kept clean and serviceable.

The Field Service Kits are available for all technicians that have completed level 4 and 5 training.

Features

- Fully housed in secure Transit Case
- Major components included
- Full parts list included
- Ease of replacement of damaged or faulty parts
